CAREER OBJECTIVE

Detail-oriented Data Analyst with strong skills in SQL, Python, data modelling, and data visualization. Experienced in preparing, cleaning, and validating large and complex datasets to extract actionable insights and support business decision-making. Familiar with Google Cloud Platform, Big Query, and analytics workflows, with a focus on data accuracy and performance. Adept at building analytical solutions, collaborating cross-functionally, and communicating technical findings clearly to stakeholders.

TECHNICAL SKILLS

Databases: SQL, MySQL

Libraries/Tools: Power BI, Excel, Tableau, Pandas, NumPy, Scikit-learn, Matplotlib, ETL

Languages: Python

Data Analytics: Data Cleaning, Data Visualization, Statistical Analysis, EDA

Concepts: OOPs, Operating Systems, Machine Learning

Soft Skills: Communication Skills, Analytical Skills, Problem Solving, Time Management

EDUCATION

SIMATS Engineering, Chennai — B.Tech, Computer Science and Engineering 2021 – 2025

CGPA: 8.5/10

PROJECTS

Revenue Optimization and Sales Insights System

Analyzed sales data using SQL and Excel to identify revenue trends, customer insights, and top-performing products. Developed interactive Power BI dashboards with KPIs and DAX measures to support strategic decision making. Performed data cleaning and validation to ensure high accuracy and reliable business reporting. Optimized SQL queries and automated Excel reporting processes to reduce manual effort and improve analysis efficiency. Generated actionable business recommendations based on trend analysis, contributing to improved sales forecasting and performance tracking.

Employee Management System | *Python, MySQL*

Developed a database-driven application using Python, and MySQL Connector Python. Configured and managed database connectivity, ensuring stable communication between application and database. Performed CRUD operations and optimized SQL queries for efficient data handling. Implemented exception handling and debugging techniques to resolve runtime and connection issues. Demonstrated understanding of database management, system integration, and backend operations.

INTERNSHIP EXPERIENCE

Data Analytics Intern

Completed long-term data analytics internship in collaboration with APSCHE. Practiced data analysis and data science tools, Data Models such as Power BI, Excel, Data Visualization Tools, etc.

Maso Technologies Pvt Ltd. Cloud Computing Intern

Assisted in managing and deploying cloud infrastructure, focusing on optimizing resource usage and automating deployment processes. Gained practical experience with cloud platforms, including AWS/Azure, and supported the migration of legacy systems to the cloud.

CERTIFICATIONS

- Introduction to Internet of Things (NPTEL)
- Oracle Cloud Infrastructure 2024 Generative AI Professional (1Z0-1127-24)
- Aviatrix Certified Engineer – Multi-cloud Network Associate

ACHIEVEMENTS & INVOLVEMENT

- Participated in coding contests and data analytics competitions.
- Volunteered in organizing college workshops, seminars, and technology awareness programs.
- Engaged in public speaking and group discussions to build communication and leadership.
