The SAP PRESS Subscription

Now Includes Rheinwerk Courses Recordings You Can Watch Anytime

Full Subscription

$899.00/year

NEW: The annual Full Subscription now includes instructor-led course recordings at no additional cost. Combine expert-written SAP PRESS books with practical SAP video training in one subscription!

$74.99/month*

**Does not include course recordings*

Topic Subscription

$59.99/month
or **$349.00**/year

Access SAP PRESS books and E-Bites in your chosen focus area:

SAP HANA • Programming • Administration
Logistics • Business Intelligence
Finance & Controlling • HR

Training builds stronger SAP teams, improves productivity, and helps professionals stay current in a rapidly changing SAP landscape. The SAP PRESS Subscription gives you unlimited access to trusted SAP learning resources in one place.

**Course recordings are only included with the Annual Full Subscription*

With the Annual Full Subscription, you get:

- ✓ Unlimited access to 350+ SAP PRESS and Rheinwerk Computing books and E-Bites
- ✓ Instructor-led course recordings you can watch anytime
- ✓ New books and course recordings added regularly
- ✓ Expert guidance on SAP S/4HANA, certifications, implementation projects, administration, development, and more
- ✓ Flexible learning with books, video training, or both
- ✓ Download your favorite e-books to your mobile devices for offline reading

Order online and start reading today!

Instructor: Darío Franco

Sales and Distribution with SAP S/4HANA

Processes and Configuration

Connect the dots between your essential sales processes and their configuration in SAP S/4HANA! Pop the hood of your new system and examine the organizational structure, master data, and basic and cross-functional settings that support your SD processes. With your SD structure in place, dive into ATP, pricing, sales processing, shipping, and billing with a look at both processes and configuration in SAP S/4HANA. Get an expert's perspective on how recent SD simplifications are moving this LOB forward, and how you can leverage system enhancements for maximum effect.

- **SD Data, Contracts, and Documents**
- **Basic and Cross-Functional Customizing for SD**
- **ATP, Pricing, and Sales Processes and Configuration**
- **Shipping and Billing Processes and Configuration**
- **Simplifications and Enhancements for SD**

Full series: **$699.00**
Individual course: **$199.00**

Classic ABAP

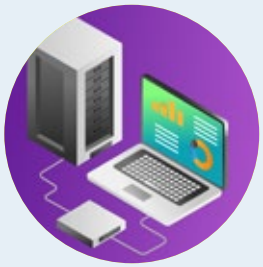

Foundational Skills for Developers and Consultants

Ensure your programming skills have a firm foundation by learning classic ABAP in this online course! Explore procedural and object-oriented ABAP concepts, learn to use testing to improve app performance, and see how you'll use ABAP in your daily work to make changes to the SAP system and create reports.

Full series: **$599.00**
Individual course: **$169.00**

Learn more and book today!

- **The Basics of ABAP**
- **ABAP Objects**
- **ABAP Performance**
- **Making Changes to the SAP System and ABAP on SAP HANA**
- **Forms and Interfaces**

3 Lessons • On Demand
Instructor: Dr. Kerem Koseoglu

Modern ABAP

ABAP Objects, CDS, and AMDP

Programming for today's SAP landscapes requires proficiency in a plethora of modern technologies. In this course, you'll improve your skills in three key areas: object-oriented programming for ABAP (OO-ABAP), core data services (CDS), and ABAP-managed database procedures (AMDP).

Full series: **$449.00**
Individual course: **$169.00**

Learn more and book today!

- **Basic Object-Oriented Programming for ABAP (OO-ABAP)**
- **Developing Core Data Services (CDS) for ABAP**
- **ABAP-Managed Database Procedures (AMDP) and SQLScript**

3 Lessons • On Demand
Instructor: Kiran Bandari

ABAP Objects

Object-Oriented Programming for ABAP

Enhance your ABAP skills with object-oriented programming! Create classes, implement polymorphism, and more. Use exceptions for error handling and write unit tests to improve your code. Learn about key design patterns and apply your ABAP Objects knowledge to the ALV object model (SAP List Viewer).

Full series: **$399.00**
Individual course: **$169.00**

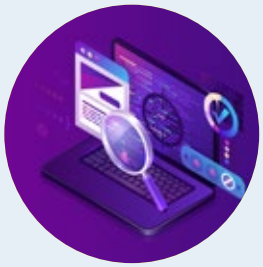

Learn more and book today!

- **ABAP Objects Fundamentals**
- **Class-Based Error Handling and Unit Testing for ABAP Objects**
- **Design Patterns and ALV Object Model in ABAP Objects**

EARLY BIRD

1 Lessons • On Demand
Instructor: Dr. Kerem Koseoglu

ABAP Unit Testing

Understand the fundamentals of ABAP unit testing in object-oriented ABAP programming. Get to know the ABAP Unit test framework and learn to code automated unit tests. You'll see how to execute tests, evaluate results, and more!

Individual course: **$179.00**

Learn more and book today!

ABAP Unit Testing

Your Instructor
Dr. Kerem Koseoglu is a freelance SAP software architect who specializes in ABAP programming. He regularly teaches professional training courses for ABAP developers. He has participated in global software development projects in a variety of roles, including lead architect, team lead, developer, technical advisor, instructor, and project manager. He is the author of *Design Patterns in ABAP Objects* (SAP PRESS), *SQL: The Practical Guide* (Rheinwerk Publishing), and several books and articles for technical magazines in Turkey. He has a Ph.D. in organizational behavior.

5 Lessons • On Demand
Instructor: Kiran Bandari

Upgrade Your ABAP Skills

Moving from Classic Development to ABAP RAP

Transitioning from classic ABAP development to ABAP RAP? This course is for you! Learn the latest programming model from the ground up: work with core data services (CDS), define behaviors, implement business objects in managed and unmanaged modes, and explore UI development and extensibility. Build your foundation in ABAP RAP today!

Full series: **$599.00**
Individual course: **$189.00**

Instructor: Shakthi Ramalaxmi

SAP Analytics Cloud

Transform your analytics workflow with SAP Analytics Cloud! Expert Shakthi Ramalaxmi walks you through the end-to-end analytics process in this course. Participants will learn how to wrangle data models, create interactive dashboards, configure planning workflows, and set up predictive analytics. Begin with an introduction to SAP Analytics Cloud, including navigation, architecture, and data connectivity. Experience data model creation from the ground up and then learn to design compelling stories with chart customizations, geo maps, and bookmarks. Explore the planning capabilities of SAP Analytics Cloud and work with predictive analytics for improved decision making.

- **Introduction to SAP Analytics Cloud**
- **Data Modeling in SAP Analytics Cloud**
- **Story Design and Visualization**
- **Planning in SAP Analytics Cloud**
- **Predictive Analytics and Performance Optimization**

Full series: **$499.00**
Individual course: **$189.00**

Instructor: Denis Reis

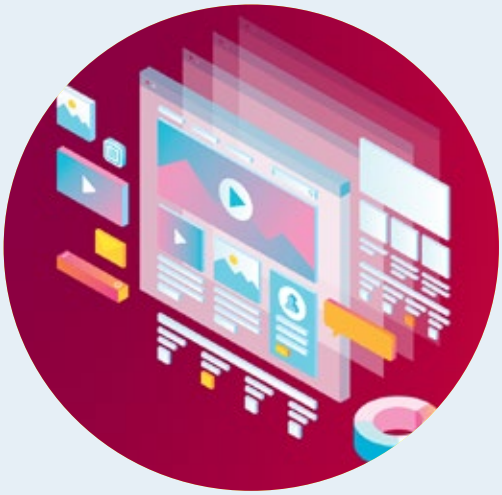

SAP Analysis for Microsoft Office

Take full control of your SAP data, right inside Microsoft Excel! This three-day course walks you through SAP Analysis for Microsoft Office (AfO) from the ground up: connecting data sources, shaping and formatting reports, customizing the tool, enabling planning workflows, and building formula-driven or macro-powered workbooks. Whether you're new to AfO or looking to go beyond the basics, you'll develop the practical skills to design flexible, user-friendly workbooks.

- October 2, 2026
  Fundamentals for Preparing and Analyzing Complex Data Models
- October 9, 2026
  Custom Configuration and Planning
- October 16, 2026
  Working with Formulas and Macros

SAP Fiori for Business Users and Functional Consultants

Apps, Navigation, and Personalization

Calling all functional consultants, IT teams, and business users: Are you ready to learn about SAP Fiori? Are you overdue? With this crash course, get a good look at SAP's newest UX for ERP and cloud solutions. First, explore the fundamental concepts behind SAP Fiori's design and tech. What kinds of business insight does each app type offer? How do role-based authorizations work? Where can you find the best app for the job? Then make SAP Fiori work for you by personalizing your launchpad. Learn how your screens are organized and make easy changes to reflect your preferences. The time for SAP Fiori is now!

With purchase, you'll receive an access link to session recordings and slide decks on the learning platform within one business day. Learn at your own pace, revisit key concepts, and reinforce your understanding of the topic. This course offers you the opportunity to learn directly from a top SAP expert. Don't miss out!

Full series: **$299.00**
Individual course: **$169.00**

Learn more and book today!

SAP Fiori Basics

Discover how your data is organized by SAP Fiori user role, and see how transactional, fact sheet, and analytical apps display your business insights so you can take action. Find and run the right app for each job, and get ready for deployment!

Using SAP Fiori Apps for Business

Get the most out of SAP Fiori! Master transactional and fact sheet functionalities, and then optimize analytical apps by personalizing cards, sending results to users, and saving custom tiles. Customize the SAP Fiori launchpad, and then create your own app!

Your Instructor

Jon Simmonds has been working with SAP software for 22 years in various roles, and is the vice president of professional services for an SAP BTP master data software company. He started his SAP career as a master data expert, having moved from a business operations role, before specializing in sales and distribution. Over the years, Jon has worked in SD, MM, ABAP development, BW, and architecture, and has held various ERP leadership roles. A two-time SAP PRESS author, is a prolific writer, having written articles and blogs and conducted guest interviews for several industry leading publications. Jon is based in southern England and loves to travel, hike, and cycle in the mountains of France in his spare time.

Ethical Hacking

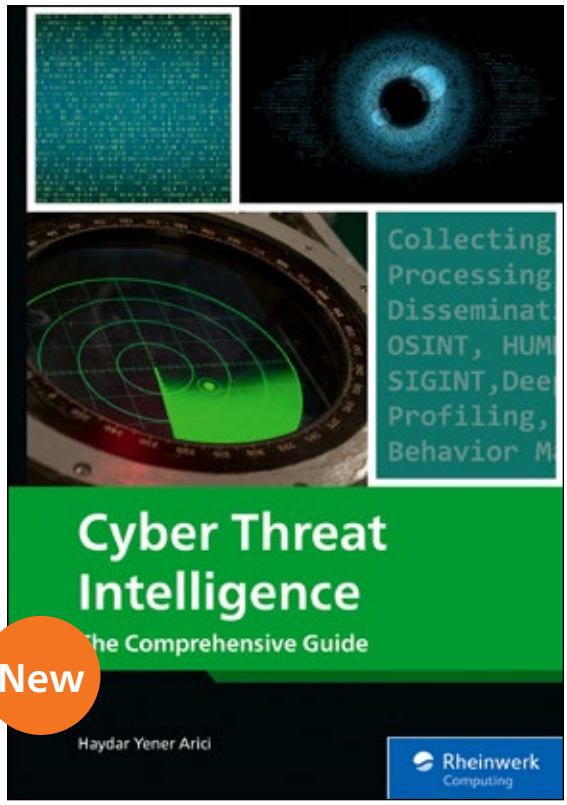

The Practical Guide for Pentesting and Red Teaming

Is your IT system truly secure? There's only one way to find out: learn to think like a hacker and test it yourself! You'll start by understanding how to find vulnerabilities through techniques like footprinting, scanning, enumeration, and fuzzing. Then you'll discover how to exploit them—and importantly, how to protect against exploits—whether you're dealing with brute-force attacks, cross-site scripting (XSS), SQL injection, social engineering, or any of the other threats out there. With integrated QR codes that connect you to supplemental video tutorials and hands-on exercises, this comprehensive guide will have you hacking in no time.

Integrating Architecture, Processes, and AI on SAP BTP

Designing an AI-Ready Execution Layer Using SAP Signavio, SAP LeanIX, and WalkMe

Planning to implement AI and automation? Start by preparing your foundation. Most organizations document processes and architecture, but don't connect them in a way that's useful for AI models and automation workflows. This book shows you how to use SAP Signavio, SAP LeanIX, and WalkMe to transform your architecture and process data into a unified execution layer on SAP BTP. You'll learn to model processes, map applications to process steps, capture adoption telemetry, design integration flows, and prepare data for AI and automation. Move from static documentation to an execution-ready SAP architecture!

SAP Build

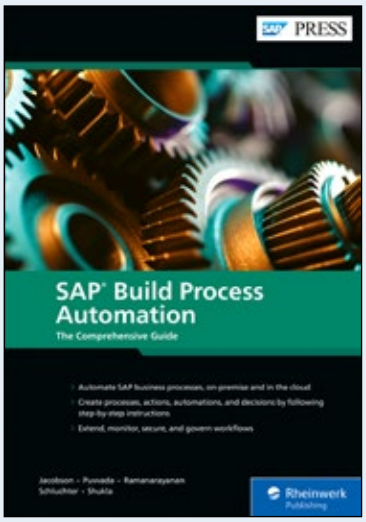

No-Code Development, Centralized Access, and Process Automation

The new SAP Build is here—dive into its tools for low-code and no-code development! Looking for a new development environment to create full stack applications? Learn how to implement SAP Build Apps! Need better tools to design and build a central access point—like SAP Fiori launchpad—for business applications? Get SAP Build Work Zone up and running! Want to create, maintain, and automate business processes? Look no further than SAP Build Process Automation! With practical guidance on the whole SAP Build suite, you'll be developing in no time.

SAP Build Process Automation

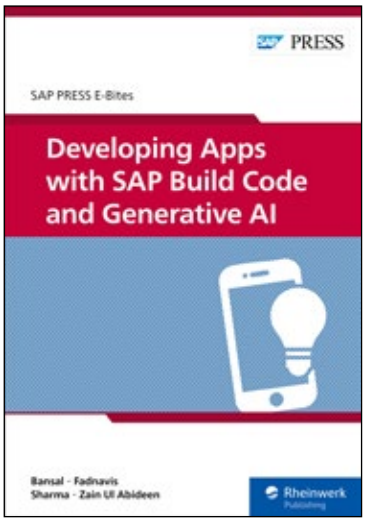

The Comprehensive Guide

SAP Build Process Automation is here—so get the most out of it with this comprehensive guide! First, create a business process project step by step using low-code and no-code tools. Then add capabilities to your workflows by configuring action, automation, and decision artifacts. Enhance your processes with prebuilt content and extensions, and learn to manage the complete lifecycle of a business process project. Finally, secure and maintain processes by setting up monitoring, governance, authorizations, and more!

Your guide to a smooth SAP S/4HANA migration!

SAP ERP is nearing end of maintenance—is your organization ready for SAP S/4HANA? In this migration guide, get up to speed on the latest migration paths, tools, and strategies. Explore on-premise, cloud, and hybrid deployment options, and then learn how to plan and execute new implementations, system conversions, and selective data transitions. With updated coverage of generative AI features, plus step-by-step guidance from planning through go-live, this book has everything you need to confidently navigate your journey to SAP S/4HANA.

- A guide to SAP S/4HANA migration and implementation projects, on-premise and in the cloud
- Planning, preparation, implementation: find the information you need for each project phase
- Detailed instructions for brownfield and greenfield scenarios

The Authors

Frank Densborn has been an expert in data migration at SAP since 2004 and is the author of numerous SAP PRESS titles in German and English. **Frank Finkbohner** worked for SAP since 1999, including 13 years in SAP consulting, where he supported customers in data migration and the development and extension of ABAP applications. **Martina Höft** works in product management for SAP S/4HANA in the area of data migration and data transformation with a focus on the SAP S/4HANA migration cockpit. **Dr. Petra Klöß** is a senior director in SAP Central Business Configuration, managing customer success for the Americas and greater China. **Kim Mathäß** has worked at SAP since 2006 and is currently senior development manager in SAP S/4HANA Globalization. **Dr. Boris Rubarth** worked at SAP from 1999 until the end of 2024, most recently as product manager in the Software Logistics division.

Data Management and Analytics with SAP BTP

ISBN 978-1-4932-2729-7 • 483 pp. • 04/2026

E-book: $84.99
Print book: $89.95
Bundle: $99.99

sap-press.com/6122

Discover how SAP BTP analyzes and manages your data!

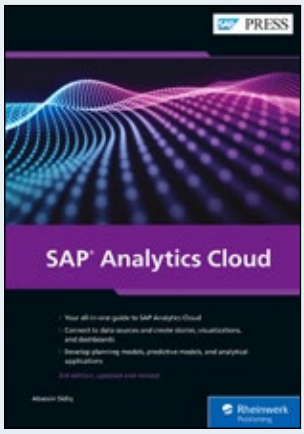

How does SAP BTP help you create a cohesive enterprise data landscape? Find out in this book! Start by developing a cloud-based data strategy and learning how to assess and improve the quality of your data. Then walk through key SAP BTP functions for data and analytics: storing data with SAP HANA Cloud, data modeling and management with SAP Business Data Cloud, and data-driven decision-making with SAP Analytics Cloud. Get on the cutting edge with SAP BTP's AI tools, including SAP AI Core and Joule. With information on real-world scenarios like fraud detection and ethical supply chains, this is the guide you need!

- Explore SAP BTP's data management and analytics portfolio
- Learn about key products, including SAP HANA Cloud, SAP Business Data Cloud, and SAP Analytics Cloud
- Get to know SAP's artificial intelligence capabilities with SAP AI Launchpad and SAP AI Core

The Authors

Dhirendra Gehlot, Jeff Gericke, Shibajee Dutta Gupta, Antony Isacc, Homiar Kalwachwala, Rick Markham, Asim Munshi, and Chris Sam have decades of combined experience with SAP solutions for EIM, analytics, and data management

Operational Data Provisioning with SAP BW/4HANA

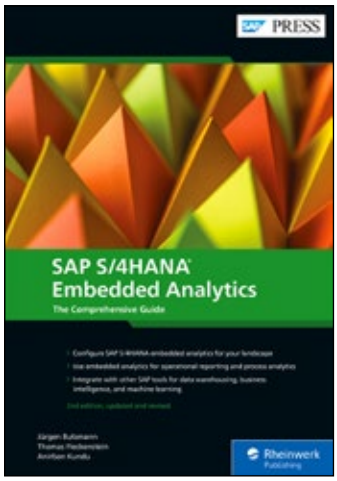

Operational data provisioning (ODP) is the new standard for data extraction in SAP BW/4HANA—are you ready for it? Use ODP to extract information from SAP S/4HANA and connect to other key data sources, including SAP HANA information views, CDS views, SAP BW, and flat files. Use SAP Landscape Transformation Replication Server to replicate data, and review the prerequisites for SAP BW/4HANA remote conversion projects. With detailed instructions throughout, this hands-on guide has all the information you need to master ODP!

Transform your FI-CO processes with AI!

You've seen the hype around AI—but are you ready to make the most of it? With this book, discover how standard and generative AI can elevate your finance capabilities. Take a tour of SAP's embedded and service-based AI tools for your core processes: accounts receivable and payable, general ledger accounting, predictive accounting, and more. Go beyond the available functionality and learn how to create custom use cases tailored to your business. It's time to unlock the future of finance!

- Explore SAP's available AI capabilities for finance, from automating journal entries to incorporating predictive analytics
- Design custom AI solutions that leverage data retrieval, content transformation, smart assistants, and more
- Preview agentic AI as the catalyst for a truly intelligent ERP

The Author

Darius Bikulcius is a director with PwC's SAP financials practice. He has more than 23 years of experience with SAP financials design and implementation. During this time, he has specialized in finance automation in the areas of invoice management, journal entries, and month-end close. Darius is SAP S/4HANA-certified in the finance and Central Finance solutions.

Capacity Planning with SAP S/4HANA

Balance workloads, visualize bottlenecks, and redistribute tasks with capacity planning in SAP S/4HANA! Start by configuring your system: maintain capacity categories, define availability checks, set up scheduling profiles, and more. Then get your hands dirty by creating and adjusting capacity requirements, generating realistic capacity schedules, and resolving overloads using capacity leveling. Evaluate capacity utilization with standard reports and SAP Fiori apps and monitor and improve your capacity planning processes.

Janet Salmon, Stefan Walz

Controlling with SAP S/4HANA

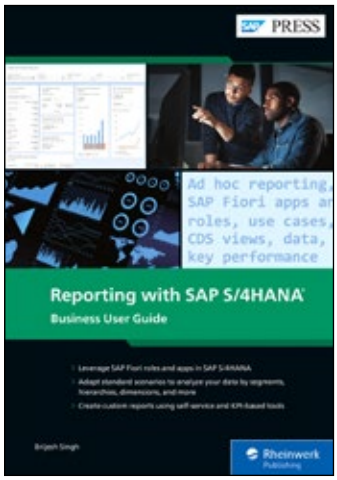

Business User Guide

If you run management accounting in SAP S/4HANA, this is the user guide you need! Start with the Universal Journal basics, and then set up your organizational structures and master data. Walk through your routine transactions, from performing overhead cost controlling to settling manufacturing costs and beyond. Work with new features such as universal parallel accounting, and perform margin analysis for sales, customer projects, and services. With details on intercompany scenarios, reporting, and more, this is your all-in-one controlling resource!
